#### ANTI-OHINESE BILL

do Passed in the House It is Hore better Than the Grany Act.

Washington, Oct. II.— The McCreary hill, giving all Chinaman in this country six munths longer in which to regis for under the provisions of the Geary not, passed the house Monday atternoon by a vote of I'm to h. The one vote east against it was that of Mr. Loud, of Cal-Units.

The single and the methwestern congruences would for the measure, although they had determined the bill in the roundest terms, and had threatment they would use every parliamentary device to obstruct its passage. The reason for their sudden conversion and appear of the hill lies in the fact that the bill in the fact that the bill in they could for it, grants a entiriantial concession to the elements in the shape of the amendment proposed by Congressmant Geory, the author of the original Geory, and

The Genry amendment provides that every Chinaman who goes up to register shall have his photograph attached to his certificate of registration. The provision was originally intended to be inserted in the Genry net when thus was in conference, but it was decumed at that time so havels that the conference throught it unwise to make an effort to pass the Genry net with the photograph clause. The house Monday his adopting the photograph named rownt to the bill maken the Genry net wint to the bill maken the Genry net was a requirement than it already is no it will be seen that the anti-Chinama presentatives from the northwester states, and the slope have required very good price for their permission test the bill become a law.

Washington, Oct. 16.—The tingle which the sensite first; found could in privacy might and which resulted in privacy might and which resulted in privacy might and which resulted in the adjournment of that hody was the outcome of a sisverly laid plot originated by Senator Imbals and executed through the Leip of Senator Teller. The others may know that an a roll call where pairs would have to be recognized that the repeal members would not be able to obtain a quorum, through on a call of the senate in which pairs can be violated a quorum was present. The difficulty then become to obtain a roll call. Senator Teller examined the rules and discovered what proved to be a mercenful manner of bringing about the fastired cad, it is a rule of the senate that except by manimous coment a public document can not be read in that bedry if it has been previously read. Mr. Teller during a vall for a quorum explained his scheme to Mr. Poffer, who was appairing and a few monocolat later Mr. Teffer from the mone of manuscript that he had on the sense of manuscript that he had on the deale resurrected a

Impositately Mr. Tailer was on his feet and objected to the reading. He raised a point of croter against the reading and after some debate the ebatrinian gave his decision, from which an appeal was taken and a roll call ardered. This was what the aliver men were hooling for and on the roll call it was developed that no quoeum was present. It was then that the repeal men stepped into another trap. Mr. Vilus tried to force Mr. Dubois to vote and a long debate ensued. An effort was made to take a vote that the senset should not excuse Mr. Dubois from voting and on this roll call another tack of a quorum was downloped and the sense was forces to account the sense of Mr. Dubois of Mr. Dubois of Mr. Dubois of Mr. Dubois consured.

Mr. Rayner, of Maryland, made a most brilliant speech in advessey, during which he attacked the decision of the superime court and decisred it was almost the unantiment opinion of the American har that the Geary law was unaccentitutional. Mr. Maguire, o California, made a suply on behalf of the Pacific coast. He claimed that the advocates of the bill had shown the cluven foot. They did not want the Geary set extended: they wanted in multified by an udverse decision of the representation. and business firms provided special trains and wagon transportation for the papils of the various schools to the fair. Many thousand tickets were given them by others and the school teachers presented the tickets to their classes. One wholesale baker provided any amount of sandwinness and pins free for the children, so they lead about everything they needed to make their day happy without expense. Some of the teachers came in charge of their classes and a great many of the children had the protection of their parents. The school catibits of the different states and institutions were made central visiting points. The children were shown what other pupiliess fortunate than they had accomplished and they told what children is some of the faraway schools were do ing and what kind of schools they had The ten cent admission rate has been made effective for all under eighteely years of age, so those of the higher probes and high schools will be able to the first of the set.

The new liberty bell was rung at moon, the school children and their teachers taking part in the exercises. The plaza west of the administration building was covered with a throag of youngstern. The exercises were under the direction of Miss Lute Gordon, of Atlanta, Ga. A munior of World's fair officials made short addresses to the boys and girls. Then the big bell tolled out in honor of the memory of Pestaloral, of Switzerland, the man who first advanced the theory of common education omong the masses. Master Hendricke and Maynard, of New York turged at the rope attached to the heavy clapper man'ully until the tomes reverbersated throughout the White city. The ringing was also in honor of Feochel, founder of the kin dergarten system, and Horace Mana founder of the American common school existent.
